

Dreams Dreaming and Inner Work

SPRING SEMINAR 2008
SAN MARCOS, TEXAS

Feb 15-16

March 14-15

April 18-19

We spend a great portion of our lives dreaming. The question is why? Human beings have been fascinated with the mystery of their dreams and dreaming since the dawn of history. Dream-time has been a topic of curiosity through the centuries and will be the topic of our seminar in the Spring. We will take up this mysterious subject and explore it from many angles beginning with the ancients and moving toward modern explanations and investigations. We will also begin an intense inquiry into dream language and interpretation and the use of consciousness as a backdrop for understanding this great mystery. More importantly we will examine our own dreams as a means of "spiritual therapy" necessary for the inner work we are doing together and personally.

*Dreams
are a deep conversation with oneself,
a dialogue of symbols and images that takes place
between the unconscious and conscious
levels of the mind*

Seminar Leader: Lynn C. Bauman
Place: Campus Christian Center
on the campus of Texas State University
Cost: \$40. 00 per weekend, \$75.00 per couple
Coordinator: Carol Husbands
(512) 2353-4455
